TRIMS PRODUCT INFORMATION SHEET

Description

Quality Stone trims can be used to create the final finishing touches on any project.

Ledge Trims - ideal for adding a finishing cap to a wall, or adding a detail feature below a window.

Edge Trims - perfect for finishing the edges to a wall of Quality Stone, or adding a detail feature around a window.

Electrical Trims are designed to provide a clean finished look around most electrical plugs and switches. An electrical extension box is recommended for proper installation.

Fixture Trims are designed to provide a clean finished look around most outdoor wall lights. An octagonal extension box is recommended for proper installation.

Features and Benefits

- Make installations easier and faster
- Project will look more complete (finished)

Uses

Designed and manufactured for:

- Exterior - Garage Surrounds, Pillars, Siding and Stucco Accents, Feature Walls, BBQ Islands, Hot Tub Surrounds, Chimneys
- Interior - Feature Walls, Fireplaces, Bathrooms, Kitchen Islands

CORNER PANEL PRODUCT INFORMATION SHEET

Description

Corner Panels are available in Stacked Stone, Ledge Stone, and Castle Stone.

In contrast to other stone options, the large Corner Panel size makes this a very affordable corner option.

Features and Benefits

- Corner Panel Left – 40" of stone on the face, and a staggered 1" left (inside wrap)
- Corner Panel Right – 40" of stone on the face, and a staggered 1" right (inside wrap)
- Please note inside dimensions are 0" and 1.5" on the return
- Left and Right Corner Panels can be used interchangeably to create a more staggered pattern
- Our quick and easy corner solution allows for no need to miter
- Stacked Stone and Ledge Stone Corner Panel Dimensions: 40" wide x 6" high x 1" return
- Castle Stone Panel Dimensions: 40" wide x 12" high x 1" return
- Tongue and Groove on both top and side edges

Uses

Designed and manufactured for:

- Exterior - Garage Surrounds, Pillars, Siding and Stucco Accents, Feature Walls, BBQ Islands, Hot Tub Surrounds, Chimneys
- Interior - Feature Walls, Fireplaces, Bathrooms, Kitchen Islands

GARAGE AND PILLAR PANEL PRODUCT INFORMATION SHEET

Description

Garage Panels are the easy solution for adding a stone feature to the sides of a garage door. They are 24" wide and 36" high.

Garage Panels are finished off perfectly with our Ledge Trims, or you can put them on top of one another for a taller feature.

Pillar Panels are the quick and easy solution for adding stone to a pillar. They are available in 8" and 11" widths (inside dimension), 48" high.

Pillar Panels are finished off perfectly with our Ledge Trims, or you can put them on top of one another for a taller pillar.

Features and Benefits

- Makes the addition of stone to any pillar or garage very quick and simple
- Most affordable way to finish these common areas for stone accents

Uses

Designed and manufactured for:

- Pillar Panels - veranda pillar, fence post, column, entrance post, light post, or number sign
- Garage Panels - front coverage on garages, can be used on return as well, large posts

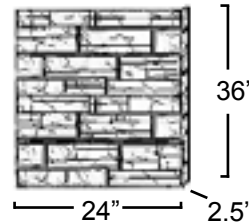

Colors

Garage Panels are available in all colors of Stacked Stone and Ledge Stone.

PREMIUM PANELED STONE™

ACCESSORIES PRODUCT INFORMATION SHEET

Description

Starter Strips are made of rigid poly, and are easily installed with a few screws. Starter Strips are designed to be used on the first row of install allowing you to lock panels in and eliminate the need for any face screwing.

Stagger Stencils are a quick and easy way to make a cut that replicates the staggered ends of the Stacked Stone and Ledge Stone Panels and Corner Panels. They can be used for thousands of cuts, making Installation easier and helping reduce waste.

Quality Stone 'Stone Finish' (10 oz.) is designed to cover any necessary screw holes, or exposed polyurethane. Stone Finish is an acrylic-latex textured colored caulking, that's easy to use and easy to clean up. No fuss, no mess!

Quality Stone 'Paint Kits' are great for touch ups of the panels where there is exposed polyurethane on Quality Stone panels. They contain (4) paints that match all the colors in our Quality Stone, and a brush to apply.

Features and Benefits

- Provides a finished look to the cut end of any panel, trim, or necessary screw holes or gaps
- Seals the polyurethane, providing sun or water damage

Uses

Designed and manufactured for:

- Exterior - Garage Surrounds, Pillars, Siding and Stucco Accents, Feature Walls, BBQ Islands, Hot Tub Surrounds, Chimneys
- Interior - Feature Walls, Fireplaces, Bathrooms, Kitchen Islands
